

XUAN TONG

Performance-driven professional with an Engineering degree, a Master's in International Business, and 8 years of international experience, including 4 years driving revenue operations for a scaling B2B startup in Paris. Combines a tech-first, analytical approach with deep expertise in B2B customer segmentation, pipeline analytics, and process automation. Proven track record of turning complex datasets into scalable operational workflows and actionable insights. Now seeking to leverage this hybrid background to drive operational excellence as a RevOps / Business Analyst.

Work Experience

Business Area Manager – Europe & APAC Market
The Brand Collector – Paris, France
CDI | Jan 2023 – Nov 2025

- **Performance Analysis & Forecasting:** Driven market analysis and tracked commercial KPIs across Europe and APAC regions. Analyzed trends to improve sales forecasting accuracy, identify revenue growth drivers, and optimize resource allocation.
- **Assortment Optimization**: Analyzed client portfolios and sales pipelines to optimize lead generation and conversion.
- **Cross-functional Stakeholder Alignment:** Coordinated cross-functional teams (sales, operations, logistics) to improve processes and service quality.
- **Achievements:** Top performer in revenue (2024 & Q1–Q3 2025), second-highest seller in 2023.

Business Developer – Europe Market
The Brand Collector – Paris, France
Internship | Jun 2022 – Dec 2022

- **Achievement:** Contributed 60% of the total team turnover through active prospecting and client management.

Customer Service Representative - Trust & Safety
Google (via Concentrix) – Kuala Lumpur, Malaysia
Jul 2019 – Jun 2021

- **Data Rigor & Policy Analysis:** Analyzed and reviewed large datasets of digital content to ensure strict compliance with Trust & Safety policies, handling sensitive information with high structure and confidentiality.
- **International Stakeholder Management:** Provided Tier 1 & Tier 2 analytical support to Google Admins across 20+ countries, working entirely in a fast-paced, fluent English environment.

Technical Assistant / Junior Technical Writer
Van Don International Airport (Vietnam)
May 2017 – May 2019

- **Process Documentation & Scalability:** Partnered with international experts (ORAT & NACO) from EU to map, structure, and document complex operational procedures and technical workflows to ensure operational scalability.
- **Workflow Optimization:** Streamlined information workflows and facilitated cross-team communication, translating complex operational bottlenecks into clear, actionable documentation.

Education & Training

Master in International Business Development (BAC +5)
IPAG Business School – Paris, France | 2021 - 2023
